HEAR FROM THE HEADMASTER

SPCS Families,

This week flew by and was full of fun and meaningful events.

Our Operation Christmas Child outreach will make a difference in the lives of many children around the world. Thank you for your overwhelming support again this year! This Thanksgiving Season I am appreciative of your partnership and the overwhelming family presence at our school events. I am also extremely grateful for the many families, that although they cannot attend, take time to contribute in one way or another to the success of these events. Working together we will continue to do incredible things for our students academically, spiritually, and socially.

"Oh give thanks to the Lord, for he is good; for his steadfast love endures forever!" 1 Chronicles 16:34

Have a Happy Thanksgiving!

In Him,
Bobby Hunter

UPCOMING EVENTS

Thanksgiving Holidays
11/25/24 - 11/29/24

Christmas Production
12/10/24

Santa's Workshop
12/12/24

Christmas Holidays
12/20/24 - 1/03/25

Thank you SPCS

NJHS and SGA members hosted our Operation Christmas Child chapel service on Wednesday and SPCS students and families came through! We collected 348 boxes that were then delivered to the dropoff location and will soon make their way to less fortunate children around the world. Thank you SPCS for your continued support of this outreach!

WE KNEAD
a little
Christmas

**TUESDAY
DECEMBER 10, 2024
6:30**

Students should wear red shirts or dresses with black or khaki pants or skirts, no shorts please

3RD GRADE MATH

Ms. Wright's math students put their math skills to work graphing the results of their pie tasting party!

EXTENDED CARE FALL FUN

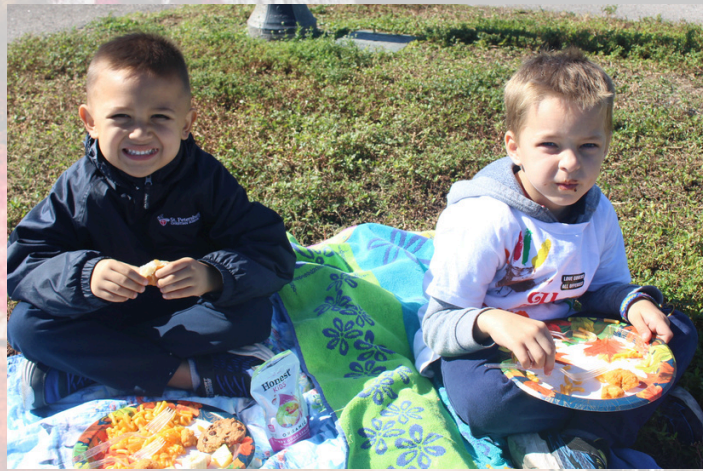

Ms. Jill planned some fun Fall games for the extended care students. The Minute to Win It games were Peach Pie, Turkey Stuffing Race, and Apple Stack!

family too

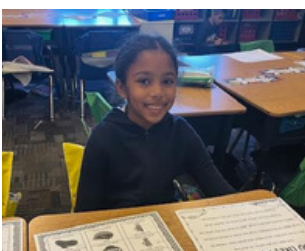

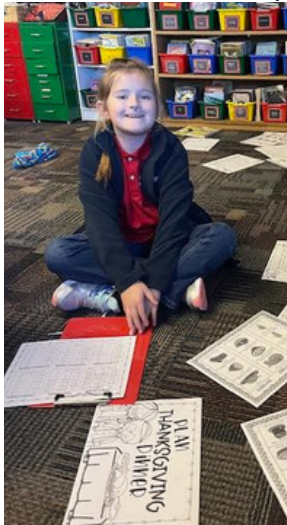

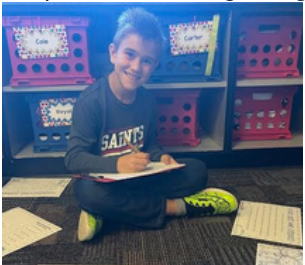

8TH GRADE SCIENCE

As 8th graders prepare for their upcoming Physics Day, our middle school lab teams were challenged to create unique and well-designed rollercoasters. Students worked together to demonstrate how potential and kinetic energy worked throughout a coaster track. By focusing on the different types of energy needed throughout the rollercoaster to keep a car moving, each team made their designs come to life.

3RD GRADE MATH

Enrichment Math students had a challenging, fun math activity this week. They had to plan Thanksgiving dinner for a family and stay under budget. They had a blast!

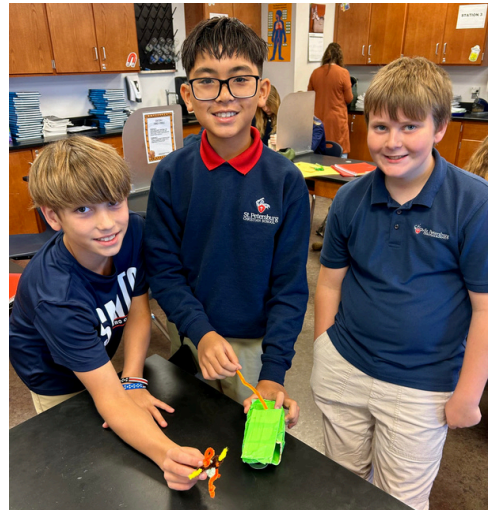

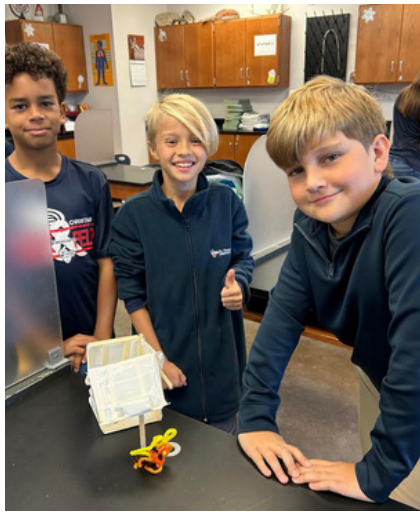

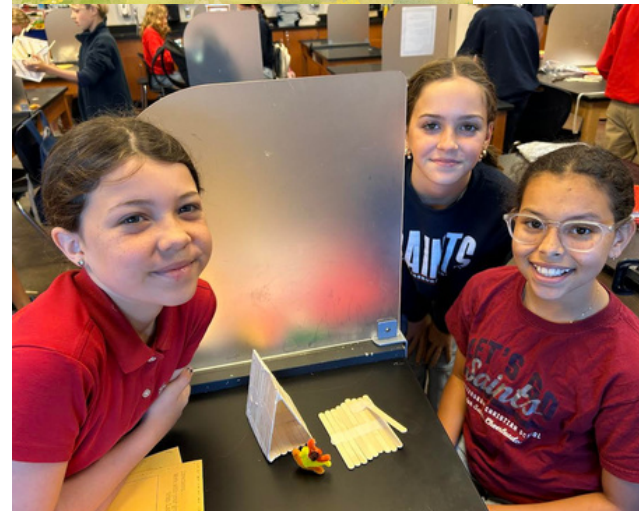

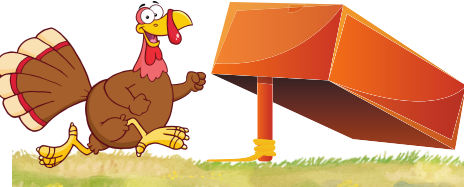

THANKSGIVING BREAK

November 25-29, 2024

6TH GRADE SCIENCE

Mrs. Godfrey had students develop problem-solving skills, creativity, and teamwork as they planned, built, and tested their unique turkey traps.
