## HEAR FROM THE HEADMASTER

SPCS Families,

Remember that next week we have SAT testing for all grade levels. Please ensure your student gets plenty of rest each night and comes to school after eating a healthy breakfast. We know that each student will do their best and many teachers have fun activities planned each day to recognize their hard work.

The weeks following testing will include many end-of-the-year field trips and events. I pray that each student finishes strong academically and makes memories with their friends.

Enjoy your weekend and "Give thanks to the LORD, for he is good; his love endures forever." 1 Chronicles 16:34

Enjoy your weekend,

Bobby Hunter

Changes  
EVERYTHING**

# 6TH GRADE SCIENCE

Sixth grade students continued to explore aspects of weather and climate as they created homemade thermometers. Each lab team carefully constructed a homemade device and then used real thermometers to check how well they had done in capturing the temperature. Once students established room temp, they added ice to lower that number and then heated water to raise it.

# 7TH GRADE SCIENCE

As we welcome spring, the 7th graders worked to create a seed dispersal device in lab groups. Students are learning how seeds and specific plants spread through ecosystems, and were challenged to design a device to allow seed dispersal through wind or gravity from some item in nature that could naturally do this job, like birds, insects, critters, or plants.

# SPRING SPORT UPDATE

## SOFTBALL

The Lady Saints softball team finished the season with a 3 and 1 winning record. The team did a great job of controlling runners on the bases and took advantage of their own speed to score runs!

## BASEBALL

The Saints baseball team's season runs through May. The team is starting to gel and we look forward to seeing them improve as the season continues!

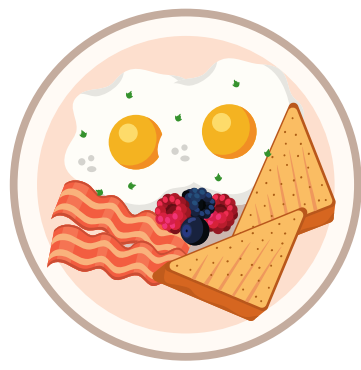

## FLAG FOOTBALL

The flag football team has an even 3-3 record with 6 games remaining. They are perfecting their plays and seeing success.
