## HEAR FROM THE HEADMASTER

SPCS Families,

Thank you for another great week! As I look at this SPOTLIGHT I am humbled by the display of parent involvement at SPCS. I truly appreciate the support that you show for our school, our teachers and staff, and most importantly our students. Having a parent come to a classroom to volunteer or as a guest for a special event, join as a field trip chaperone, or visit for a special lunch with your student - all make a difference. We are lucky to have such a faithful SPCS family!

"So we have come to know and to believe the love that God has for us. God is love, and whoever abides in love abides in God, and God abides in him." 1 John 4:16

Enjoy your weekend!

In Him,  
Bobby Hunter

## UPCOMING EVENTS

---

**PTF Bowling Event**  
9/21/24

---

**Picture Retake Day**  
9/24/24

---

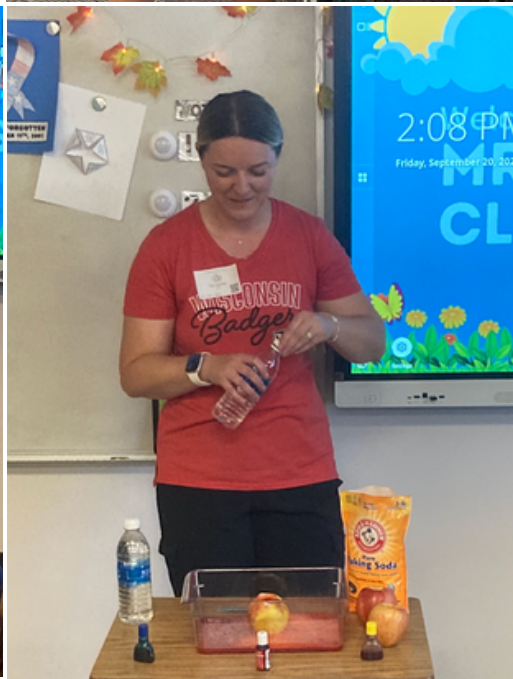

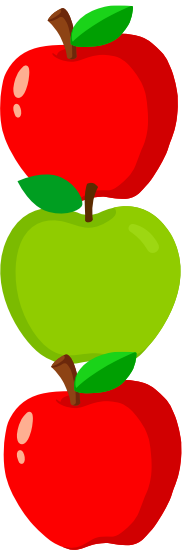

# KINDERGARTEN GUEST SPEAKER

Miss Dorsett's class welcomed Silas' dad to share a lesson on the wisdom of knowing Jesus is our treasure! He shared a Bible story and led the class in a couple of songs. He is a Pastor at Local Church St. Pete. The class hopes he comes back again for another lesson soon!

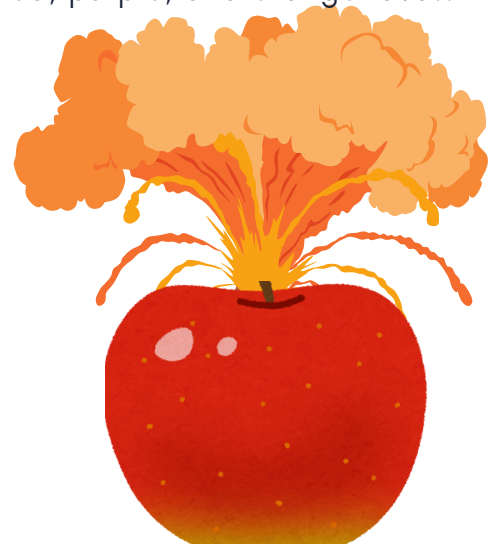

# MRS. KOON'S CLASS OF INVENTORS

Her 2nd grade students worked to build a S.T.E.M invention that could pick up apples in the classroom. They explored the properties of paper and thought like inventors - building, testing, learning from failure, and trying again and again! Their Apple Trappers did the job!

Oliver's mom also visited to do an apple volcano experiment! It was red, purple, and orange lava!!

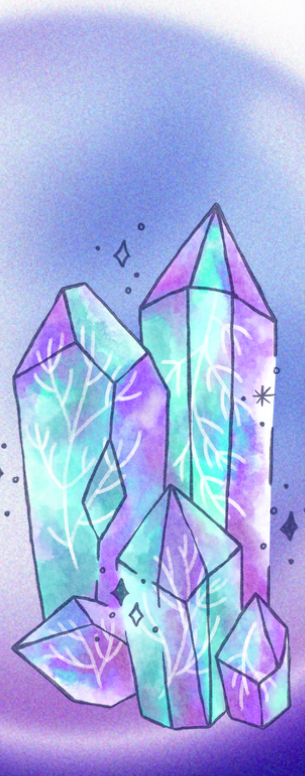

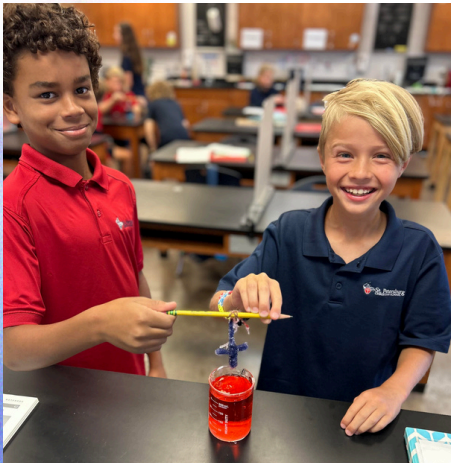

# MRS. PRATT'S HAPPY CLASS

Her 2nd grade class is learning about health and the importance of keeping their teeth healthy too. With the right foods, everyone can have a cute smile!

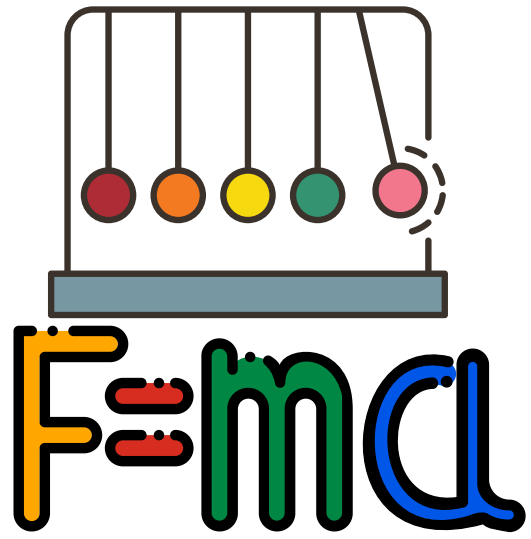

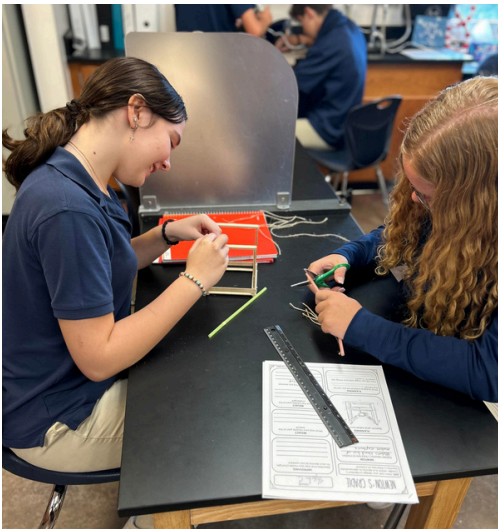

# 6TH GRADE SCIENCE

Sixth grade students had an opportunity to learn about and grow their own crystals. Students are studying geology and finding out how different types of rock form and what makes up the layers of the earth. Lab partners worked together to create unique shapes and colors just like God uniquely made the world around us.

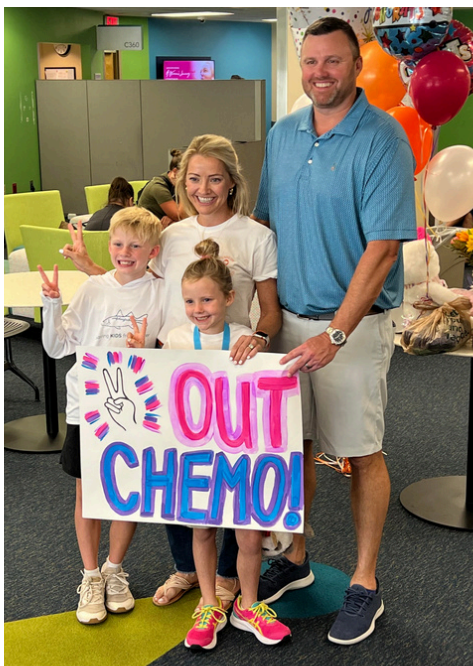

# 8TH GRADE SCIENCE

Mrs. Godfrey is exploring force and motion in Physics with her 8th graders. Students have been learning how Newton's Laws of Motion surround them in their daily life. To demonstrate the action-reaction force of Newton's 3rd Law, students spent the week building their own Newton's Cradle.

## CONGRATULATIONS KENNEDY

She fought the battle and WON! This week she rang the bell to celebrate the end of chemo treatments! She was a warrior throughout and we are so proud of her!

# 1ST GRADE FIELD TRIP

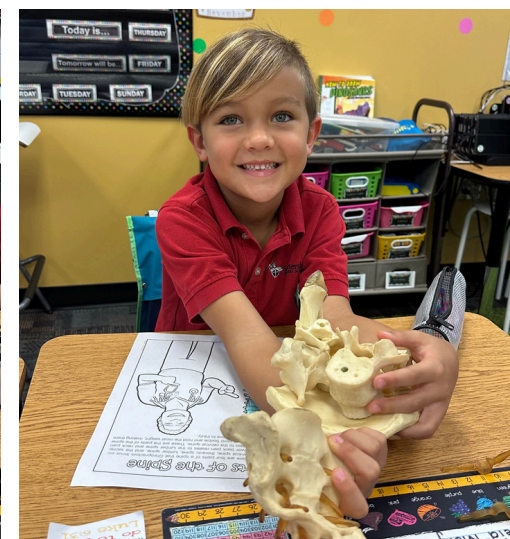

First grade students took a field trip to the fire station. They learned about fire safety, toured the fire station, and saw the brave firefighters do some cool things!

# 1ST GRADE COMMUNITY HELPERS

Continuing with their Community Helper Unit, 1st graders welcomed SPCS dad, Mr. Springer to share about his job as a chiropractor. They learned that he uses his hands to examine and treat problems of the bones, muscles, and joints. He brought several props to let them get a hands-on experience as well!

# MRS. HUNTER'S CLASS MYSTERY READERS

Mrs. Hunter's class was treated to a couple of prehistoric mystery readers! Luna's mom and dad dressed as dinosaurs and each read a Dino book. They gave each student a pack of Dino gummies and a Dino egg which we put in water to hatch.

# PARENT CONFERENCE DAY FUN

Miss Jill and her team took the students to SkyZone for some fun!
