HEAR FROM THE HEADMASTER

SPCS Families,

As the year winds down, we will come together as a school community to show His love to others. This month we will honor and celebrate our Veterans during a special Chapel. I invite you to join us in the gym on November 13th for the special event.

The following week we kick off our annual Operation Christmas Child outreach that encourages our students to personally bless children in need across the world by filling shoeboxes with toys, personal care items, school supplies, and the message of Jesus Christ.

Don't forget we fall back this weekend, so make sure to set your clocks back one hour.

"Oh give thanks to the Lord, for He is good, for His love endures forever." Psalm 107:1

In Him,
Bobby Hunter

UPCOMING EVENTS

Veteran's Day Service
11/13/24

Operation Christmas Child Kickoff
11/20/24

Thanksgiving Holidays
11/25/24 - 11/29/24

Christmas Production
12/10/24

OUTSTANDING STUDENT ACHIEVEMENT

Despite the extraordinary events of the first quarter, our Elementary students did their best and we were proud to recognize their hard work at this week's Honors Assembly. We appreciate the many family members that attended in support of their student!

Veteran's Day CHAPEL

Wednesday, November 13th at 8:30am

SPCS Gym

KINDERGARTEN FIELD TRIP

This week, Mrs. Knox's class had their field trip to Paisano's Pizza. They had fun making their own pizza and spending time with their friends!

3RD GRADE PUMPKIN PROJECT

Students in Ms. Wright's class and Mrs. Hudzina's class were offered extra credit to create a pumpkin to represent a character in one of their favorite books. Here are just some of their creations!

We Need A Little Christmas
TUESDAY - DECEMBER 10, 2024 - 6:30

COMMUNITY HELPER DRESS DOWN

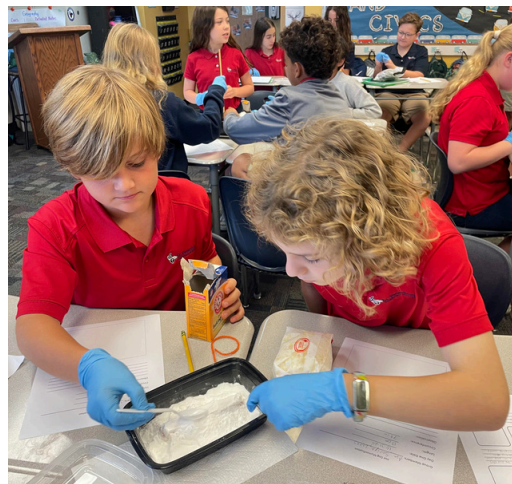

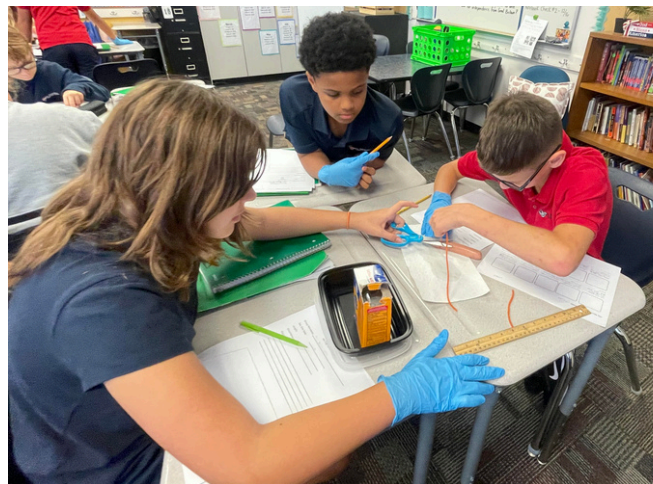

To conclude their Community Helper Unit, Kindergarteners came to school dressed as what they want to be when they grow up.

WHEN I GROW UP.

6TH GRADE SOCIAL STUDIES

Sixth graders are learning about ancient Egypt and mummification in Ms. Boyd's World History class. On Thursday they began an experiment to mummify a hot dog. In one week, they will see if the mummification process worked and how the hot dogs changed.

2ND GRADE SCIENCE

Second graders are learning about the plant's life cycle. They planted lima beans and will observe them as they grow. They are thankful to God for plants!

1ST GRADE FALL FUN

First graders had some Fall fun - they ate all things orange, listed the facts they learned about spiders on their cute headbands, read Fall books, and carved a pumpkin.

7TH GRADE SCIENCE

As 7th graders explore food chains and food webs, lab groups were challenged to create STEM Marble Mazes showing the levels from producers to consumers. Students chose their favorite habitat and selected unique animals to place along the maze path.

8TH GRADE SCIENCE

Eighth graders experienced some culinary chemistry. Lab partners worked through the steps of the scientific method to predict outcomes of candy in different solvents. They then explained how those reactions occurred based on the type of liquid the candy was placed in.
