HEAR FROM THE HEADMASTER

SPCS Families,

The heart of SPCS was on full display today. Valentine's Day gave us the opportunity to remind others how special they are to us. I am encouraged that this love is always on campus with His work being done here day in and day out. From hearing Kindergarteners recite Bible verses, to seeing friends help friends carry their things, to hearing a teacher encourage a student, I am thankful for SPCS. There is always something going on, but if we stop to remember why we are here, the answer can be heard.

All of us at SPCS appreciate the trust that you put in us. Please continue to spread the word about the good happening here. We are hosting a Kindergarten Open House on Wednesday, February 19 and would love to welcome a family you know to our Saints family.

As we enter this weekend, let us be reminded of God's word that proclaims "...three things will last forever—faith, hope, and love—and the greatest of these is love" 1 Corinthians 13:13.

Enjoy your weekend!
Bobby Hunter

NJHS KIND MOUSE MISSION

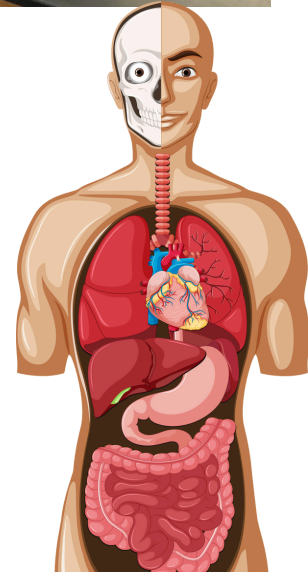

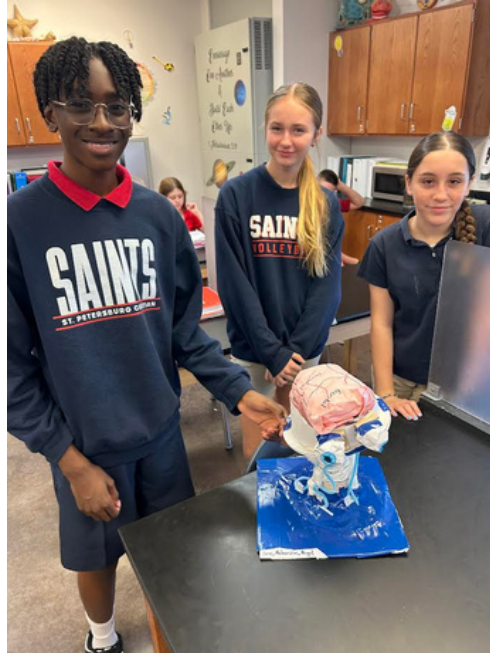

NJHS students volunteered at Kind Mouse this past weekend after collecting almost 400 pounds of food donated by SPCS families. They sorted, dated, and prepped meal kits (Nibbles Boxes) for families in need and then assembled over 800 kits. We are proud of these students and thankful for our generous SPCS families!

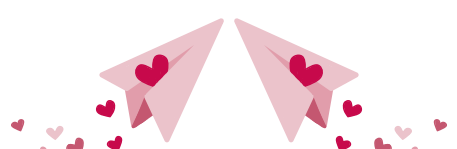

7TH GRADE SCIENCE

As we explore anatomy and physiology with the 7th grade, the importance of building science models has been discussed. Students learned why models are built prior to launching big projects in various science fields. Our 7th graders worked to create anatomical models, including hearts, limbs, lungs, and more to demonstrate how our human body works.

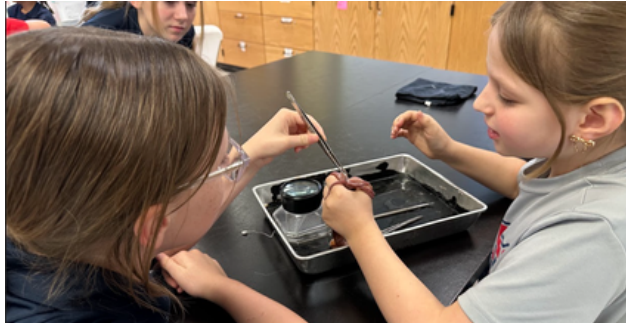

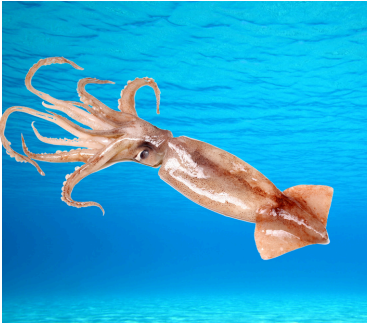

SGA VAL-A-GRAMS

SGA students prepared all of the Val-A-Grams. What a "sweet" project!

5TH GRADE FIELD TRIP

Students in 5th Grade enjoyed their field trip to Tampa Bay Watch where they engaged in hands-on, experiential labs and activities. They developed a connection with the local estuary ecosystem through seining, dissecting, and identifying marine living things.

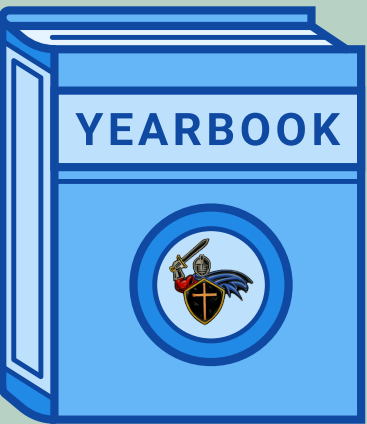

1ST GRADE FIELD TRIP

Students visited the Glazer Children’s Museum and enjoyed brain-building play and quality learning while experiencing the GCM exhibits that encouraged thoughtful questioning, critical thinking, and imagination.
